

Tier II

INTERVENTION REPORT

- ✓ Easily group students based on need for targeted, small group instruction
- ✓ Focused, individualized learning pathways that target learning needs
- ✓ Up-to-the-minute progress monitoring of student reading data
- ✓ Clear and actionable data for teams to use to make decisions related to performance
- ✓ Proven growth--students who consistently engage in Quindew grow .38 grade levels per Season (or 12 lessons)

QUINDEW DELIVERS TIER II INTERVENTION

INTEGRATION WITH TIER I SUPPORT

Quindew delivers research-based, skill-based reading instruction through online practice and Quindew's Curriculum Pack that can be transferred across content areas. Reading standards are reinforced in Quindew lessons, creating a seamless connection between what students need to know and the reading skills they are learning in class.

CLEAR AND ACTIONABLE STUDENT DATA

Reading data is updated each week which allows teachers to respond quickly to student performance. Class and student dashboards make it easy for teachers to identify students who are achieving and falling behind. Beyond the dashboards, Quindew's Clarity Data tells a clear story about student motivation and the choices students make as readers.

MONITORING TOOLS

RTI Teams can easily sort students by grade level reading, reading skills, motivation, language needs, intervention, and overall performance.

SUMMARY REPORTS

RTI Teams can quickly identify how students are doing, if they are motivated, if they are struggling, and what reading skills to target.

BEYOND TIER I

Quindew supports classroom teachers by delivering adaptive, individualized learning paths to each student based on their performance.
